How to Use Your H♥artivations™ Gold Dust Mini-Poster

Here's a tool that may help you "feel" differently about money. In her classic book, "The Dynamic Laws of Prosperity," Catherine Ponder tells the story of a salesman whose standard response to the "How's business" question was always "Business is wonderful because there's gold dust in the air!" And for him there was. Because he said it was so, each contact resulted in sales and people always remarked of him, "Everything he touches turns to gold."

Everything you touch can turn to gold, too, if you "see" the gold dust that is in the air. Take a few moments several times a day and simply visualize gold dust surrounding you...well, like the air you breathe. Have fun with this. Feel its vibrant energy cascading over you, softly grazing your hair, faintly brushing your cheeks, covering your clothing, and collecting in your hands and at your feet. Squish it between your fingers. Wiggle your toes in it. Roll around in it. Make gold dust angels! Then when you are truly in that golden state of abundance, feel yourself overflowing with gratitude as you thank the Universe for your bounty.

This golden-framed mirror is already reflecting the gold dust that is in the air. Use the mirror to see yourself surrounded by prosperity and abundance, because the truth is, that is your natural state. All you have to do is claim it!

Note: All of Heart Projects' Manifesting® products feature 17 beads that will help you to focus and direct your thoughts in this exercise. Please visit our website at: www.Manifesting.us.
